

Company CEO: _____

Product demonstration station officials: _____

Company Name

Safety					
Check here if the company has their PASSED safety inspection card Companies without their safety inspection PASSED card cannot participate in the product demonstration.					
Check here if tamper seal on fuse is still intact Companies with a broken tamper seal on their fuse must see the safety inspectors before their ROV enters the water.					
Check here if the company presented you with a JSEA (Jobsite Safety Environmental Analysis)	<table><thead><tr><th colspan="2">JSEA Points</th></tr></thead><tbody><tr><td>0</td><td>5</td></tr></tbody></table>	JSEA Points		0	5
JSEA Points					
0	5				
Check here if vehicle matches photo taken at safety inspection Companies must use the same vehicle, float, and other devices that went through the safety inspection.					
Total Safety (out of 5)	Total				

Organizational and Operational Effectiveness (up to 10 points)	Points	
Up to 4 points - Teamwork/Collaboration & Communication		
Chain of command evident	0	1
Roles clear and executed well	0	1
Composure under pressure	0	1
Supportive of each other and communicate well with each other	0	1
Up to 2 points - Project Management		
Task plan is well thought out to maximize score	0	1
Alternate plans available and all team members are aware of the plan	0	1
Up to 2 points - Problem Solving & Ability to Deal with Obstacles		
Awareness of time	0	1
Adjusting timeline to adapt to situations	0	1
Up to 2 points - System Design & Control/Electrical		
ROV deployed by the end of the 5-minute set-up period	0	1
ROV is under control of pilot and prepared to perform tasks	0	1
Total Organizational and Operational Effectiveness (out of 10)	Total	

Fuses: ROV systems are allowed one replacement fuse during the product demonstration. In the event that the ROV system blows the second fuse during the demonstration, time will stop, the demonstration run will be over, and no additional points will be earned. Companies should have adequate replacement fuses on hand, MATE will not provide replacements.

Task # 1: Seabed 2030: A Kaleidoscope of Corals in Cold Water (up to 85 points)		Points				
1.1 up to 30 points – Collect species from a coral garden 5 points each, 10 points total – collect two basket stars up to 20 points – collect two coral species 10 points each, 20 points total – collect coral species by the substrate only 5 points each 10 points total – collect coral species NOT by the substrate		0	5	10		
		0	5	10	15	20
1.2 up to 40 points – Coral Garden Ridge Modelling up to 40 points – via photogrammetry, autonomously create a scaled 3D model of the coral garden up to 20 points – create a 3D model of the coral garden 20 points – model shows all 8 targets 15 points – model shows 4 to 7 targets 10 points – model shows 1 to 3 targets 5 points – model is created but shows no targets 10 points – measure the length of the coral garden within 5 cm 5 points – scale the 3D model using the length of the coral garden 5 points – using the properly scaled model, estimate the height within 5 cm		0	5	10	15	20
		0			10	
		0			5	
		0			5	
or						
up to 30 points – manually (CAD) create a scaled 3D model of the coral garden		0			10	
10 points – measure the length of the coral garden (within 5 cm)		0			10	
10 points – measure the height of the coral garden (within 5 cm)		0			10	
10 points – create a scaled 3D model of the coral garden displaying the length and height measurements		0			10	
1.3 up to 15 points – Fly a Transect Over the Coral Garden 15 points – maintain position over the coral garden in a current		0			15	
Total Task # 1 (out of 85)						Total

Task # 2: SmartAtlantic (up to 55 points)		Points			
2.1 up to 20 points – Mitigate Invasive Species up to 15 points – determine the number of invasive European Green crabs 15 points – using image recognition 5 points – manually 5 points – upload the data to the invasive species form		0	5	15	
		0		5	
2.2 up to 35 points – Iceberg Tracking up to 10 points – survey the iceberg at 5 points around its perimeter 10 points – survey all five points 5 points – survey one to four points up to 10 points – measure the keel depth of the iceberg within 10 cm of true depth 10 points – within 5 cm of true depth 5 points – within 5.01 to 10 cm of true depth up to 15 points – use the location, heading, and keel depth to determine the threat level of the iceberg to the four area oil platforms up to 10 points – determine the threat level to the offshore platforms 10 points – correctly report the threat level to all four platforms 5 points – correctly report the threat level to only three platforms 5 points – determine the threat level to the offshore platform's subsea assets		0	5	10	
		0	5	10	
		0	5	10

Total Task # 2 (out of 55)					Total

Penalty Points (deduct 5 points for each infraction)		No. of Infractions		
Safety: Product demonstration officials may deduct points for safety violations. Minor violations are a 5 point penalty. Major violations may be 10 or more points. Product demonstration officials may also disqualify a company for extreme safety violations. Note: An official’s decision to disqualify a company due to safety concerns is final. If there is a safety concern, please contact the lead safety inspector or competition coordinator.				
Tether Pulling: Company members cannot pull on the tether to assist in moving or turning the vehicle. Judges should issue a warning for the first infraction and begin deducting points AFTER the first infraction.		a		
Illegal communication: Company members at the side of the pool may not communicate visual evidence of the ROV status such as location of vehicle, need to turn, that the vehicle is stuck, etc.		b		
Debris: Companies that leave debris (e.g. parts of their ROV, including weights and flotation) in the pool at the end of the product demonstration time, or leave debris that a diver must retrieve will receive penalty points. Mission props deployed into the pool ARE NOT considered debris. Unless otherwise noted, mission items to be recovered or replaced ARE considered debris. A company constructed collection basket is considered debris if it is still in the water, not under control of the ROV, when product demonstration time ends.		c		
Assistance: Any diver or MATE ROV assistance (if available) must be requested by the company and will result in a 5 point penalty. The clock does not stop during diver assistance.		d		
Total Penalty Points		(total a + b + c + d) plus safety violations		Total
