Design Engineer

New Competitors- 900 miles to International Competition

Production Price \$4538.33

“The Anna Maria”

Modular 80/20

Safety Features:

- Automatic halt of motors in case of communication failure.
- Each component has protective diodes to protect against reverse current
- Fuse and direct cutoff switch are topside
- Slight positive buoyancy to ensure ROV retrieval
- Heat sinks ensure components do not overheat
- Designated handles for safe and easy transport
