

THINGS TO KNOW WHEN YOU ARRIVE AT THE 20TH MATE ROV WORLD COMPETITION

LONG BEACH CITY COLLEGE - LIBERAL ARTS CAMPUS - 4901 CARSON STREET, LONG BEACH, CA, 90808

***Please refer to the attached map.**

Check-In will be located at the Athletics/Aquatics Center Courtyard outside the Pool/W Building. Please coordinate with your team mentor and arrive on time but no earlier than 5 minutes before your scheduled time. To expedite the safety inspection process, teams should be prepared to present their ROV for inspection at the same time as team check-in. Mentors and CEOs should proceed to the check-in tables, where they will receive the team folder and the name badges for all registered students and mentors/instructors. Your team's Safety Officer, and up to two other team members (not mentors) can proceed to the Safety Inspection area to present your ROV.

Event Parking is in the Long Beach City College J Parking Lot for attendees and guests. The cost is \$2 per day. Please purchase tickets as soon as you park and place the ticket on the dash during your stay in the parking lot.

Loading/Unloading ROVs and Food Trucks are located at the parking lot at the intersection of E. Lew Davis St. and Faculty Ave. and is for loading and unloading people and supplies only, no parking. Please be courteous – and quick – when dropping of and picking up. Food trucks will be in the loading and unloading area daily from 11:30am-1:30pm to purchase refreshments and lunches.

Opening/Closing Ceremonies will take place in the J Building. This is approximately a 10-minute walk from the Athletics/Aquatics Center across E. Carson Street. Please make sure you take the Carson St. foot bridge or a crosswalk.

Product Demos, marketing displays, and the vehicle testing area are located at the Pool/W Building. Teams must check in and pass safety inspections before any vehicle testing. (NOTE: Only badged student team members will be permitted on the pool deck during practice and the product demonstration runs.)

Safety Checks, engineering presentations and Fine Design MATE Merchandise sales will be located at building T. While mentors and CEOs are checking in, please have your team's Safety Officer and up to two other team members (not mentors) proceed to the Safety Inspection area to present your ROV at your scheduled time.

(See page 2 for more important information!)

Team

Workstations will

be in the
Athletics/Aquatics Center

Courtyard between the soccer fields and the tennis/beach volleyball courts. Each workstation will have one table and two chairs (do not take other teams chairs); you are welcome to bring in additional chairs or picnic blankets for seating. Please note that the area will be open at night, there will be overnight security. However, please do not leave anything valuable. As usual, you can only use power at the repair station; please do not use the outlets in the athletic area courtyard. There are plenty of grassy areas in the Athletics/Aquatics Center Courtyard outside the Pool/W Building for guests to sit. Please ensure any tents are weighted down and don't leave blankets on the lawn overnight. As part of our continuing efforts to be environmentally friendly, bring your reusable water bottles and if you have single use plastic, always recycle. The Athletics/Aquatics Center Courtyard has multiple water filling stations.
